

# WOUND EDUCATION

CLINICAL TRAINING MADE EASY<sup>©</sup>

SESSION TWO

INTRODUCTION AND PRE-ASSESSMENT

# LEARNING OUTCOMES

- Comprehend the value of accurate, consistent and standardization of wound outcome data to support practice improvement
- Implementing practice that is safe, cost effective and within the clinician's scope of practice must be considered in the treatment plan
- Be aware of the potential legal or ethical implications associated with wound management.

# Assessment of Prior Knowledge

*Attempt to list 3 points for each item*

- Documentation
- Measurement
- Photography
- Reassessment  
& Monitoring

- Cost Effectiveness
- Infection Control
- Scope of Practice  
& Escalation
- Legal & Ethical Practice
