Wet Skin Conditions – MASD

Best Practice Skin Care

# Assessment

Refresh your knowledge and complete the  
10 multiple choice questions.

# Work Place Project

Best practice cleansing & moisturizing the skin assists in restoring, soothing and protecting skin integrity. Review the skin care protocol in your workplace.

1. Does the protocol reflect best practice?
2. What changes would you recommend?
3. Investigate the ingredients of both the cleanser & moisturizer available for general skin care in your organization. Are the products quality and aligned to best practice?
4. Review your personal cleanser & moisturiser
